

**MIKE MCMANIGAL**  
PROJECT COORDINATOR

402.518.2318 | [MsMcManigal@Timberlyne.com](mailto:MsMcManigal@Timberlyne.com)

Mike is one of Timberlyne's experienced Project Coordinators, ready to help guide you through the exciting process of building a home, barn, or commercial structure.

Dedicated to superior service, Mike works hard to foster collaborative relationships with customers and the design team from the first phone call through the end of construction.

Mike has a Bachelor of Science in Design and Drafting and has been in the construction industry for 25 years. He has extensive experience working on a variety of projects, from single-family homes to multi-family homes, condos, duplexes, triplexes, barn projects, and complete custom homes.

Having been a part of well over 300 construction projects through the years, Mike loves to help customers find solutions to meet their needs. One of his favorite projects to work on was the Whistlebee Farm Barn in Wisconsin. The family wanted to rebuild a structure similar to her grandparents' dairy barn after a tornado had wiped out the original barn. Mike learned their story and helped them recreate a similar structure.

Mike resides in Wayne, Nebraska, with his wife, Melanie. They have four children and two dogs. In his spare time, Mike enjoys sports, hunting, fishing, and family vacations to the mountains.

“ I love finding solutions for customers with their construction needs. I'm passionate about being part of the up front design all the way through construction. The best part is seeing the finished pictures the customers share after completing a project. ”

## BUILDING DEAMS, CONNECTING LIVES.

Wood Barns, Timber Homes,  
and Commercial Structures.
