

JASON ERB

PROJECT COORDINATOR

402-518-2372 | JErb@Timberlyne.com

Jason is one of Timberlyne's Project Coordinators who has extensive experience guiding customers through the exciting process of building a home, barn, or commercial structure.

Dedicated to superior service, Jason works hard to foster collaborative relationships with customers and the design team from the first phone call through the end of construction.

He has had the pleasure and challenge of working on some of the largest post and beam projects at Timberlyne. While he has enjoyed those experiences, he has also worked on smaller projects in size and scope. Every project is important to each customer and, in turn, important to Jason.

Jason has worked with homeowners from coast to coast and is passionate about helping each one find the right product to make their dream a reality. His favorite part is the customer's love for timber; both look and function, especially when the customer realizes that Timberlyne can meet their needs to create something amazing.

Jason resides in Wakefield, Nebraska, with his wife, Denise. They have an adult son, Justin. In his spare time, Jason likes spending time with his family, enjoying the outdoors, camping, boating, and playing golf. Jason and his son are avid snowmobile riders.

“ In my years with Timberlyne, I have worked with customers all the way from the idea and conception phases through design, production, and delivery. So, no matter the level of involvement or at what stage, I am always there to support our customer and their plans and dreams. ”

BUILDING DEAMS, CONNECTING LIVES.

Wood Barns, Timber Homes,
and Commercial Structures.
