

TRAVIS PUTMAN

PROJECT COORDINATOR

210-428-6118 | TPutman@Timberlyne.com

Travis is one of Timberlyne's experienced Project Coordinators, ready to help guide you through the exciting process of building a home, barn, or commercial structure.

Dedicated to superior service, Travis works hard to foster collaborative relationships with customers and the design team from the first phone call through the end of construction.

Travis enjoys providing solutions-based timber design to maintain the design intent while providing structurally sound timber designs.

He is an expert in the Texas Hill Country area but has worked with customers from coast to coast. His work focuses on high-end custom homes, developing solution-based designs for builders. He also frequently works on horse barns and venues.

Travis's favorite project was a horse barn in Utopia, Texas. Taking the project from the initial napkin sketch to the customer's dream barn was very fulfilling. Travis grew up on horse ranches and enjoyed applying his life experiences to help the customers design and build their barn.

Travis resides in Blanco, Texas, with his wife, Brittany, and their two children. Travis likes coaching his kid's sports teams, team roping, riding horses, and golfing in his spare time.

“

Timber frames represent heritage, and I'm honored to be a part of helping families establish legacy through long-lasting design. My goal is to maintain the design intent while providing structurally sound timber designs.
